REASONS FOR ALLOWANCE

1. Claims 1 and 5-11 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a liquid crystal display device comprising a combination of various elements as claimed, more specifically, a light shielding layer formed in an area facing the step portion that is downwardly rubbed in the direction of the rubbing process, on at least one of the first substrate and the second substrate, wherein $0.5D < W1$ and $d1 + 300\text{nm} < D$ (see definitions of $W1$ and $d1$ in independent claim 1).

Murade ('841) discloses an LCD device comprising a step portion formed on a surface of an alignment layer and downwardly rubbed in a direction of the rubbing process, and a light shield layer forming in area facing the step portion. However, Murade fails to disclose/teach particular relationships of $W1$, $d1$ and D as claimed in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2871
